ABOUT THE COLLEGE

The Academy of Business and Engineering Sciences, Ghaziabad has been continuously striving for excellence in education, training, and research & consultancy in the area of Engineering, Technology & Management with emphasis on value-based education. The Academy of Business and Engineering Sciences was established in the year 2000. It is recognized by AICTE and affiliated to U. P. Technical University, Lucknow. The college is spread over an area of 16 acres of lush green surroundings that provides a clean, open & pollution free academic environment. It is located on Delhi-Hapur by pass (NH-24), about 11 KM from Delhi border. The college is ISO 9001:2000 certified and its CSE, IT, MCA and EC departments are accredited by the National Board of Accreditation. This college has made phenomenal progress in a short span of time and today it is recognized as one of the most elite institutions in the NCR.

ABOUT THE CONFERENCE

Computer and communication have come together in a big way today. Most modern telephone exchanges are computer based. On the other hand computers also need communication links for sharing of data and resources. Development in advance computing continues to be driven today by demanding engineering and scientific applications. Until a few years ago computer was primarily used for office management but now it is being used for business transactions for making management decision, strategic planning and customer relationship management. Besides, application of computers is growing in the field of remote sensing, medical diagnostics, and process controls. Today computer and communication have converged together and created a cyber world. It has greatly enhanced the level of information acquisition, retrieval and processing. The conference aims at addressing current state of the technology and the outcome of the ongoing research in the area of advance computing and communication.
